

Summer / Fall 2009 News Letter

Greetings Harbor Dance Families!

Fall is near and we are accepting registrations. It is wonderful so many families have already taken the time to register their kids early. It really helps us to know in advance areas where we need to add classes so we can avoid wait listing our most popular classes.

There is still availability for summer programs. You may register over the phone for your convenience.

If your dancer is interested in joining our Ballet Company and is a level four or higher, I would encourage you to attend an intensive with Kate Monthly July 27 - 31, August 3 - 7 or August 10 - 14 or arrange a private with through the studio to be evaluated for placement as there are Apprentice and Principle levels.

Ballet Company choreography for fall and winter performances will be August 17 -24 from 10:00 am - Noon. **There will be a parent meeting for new Ballet Company parents at 10:00.** See the web page for complete details. If you have vacation plans and cannot attend, call the studio and we can make special arrangements for your dancer. Acceptance into the Company is year round by invitation only.

We are still accepting dancers interested in Performing Group. Because all choreography for the entire season is completed in August, we kindly request you call the studio prior to August 10. Please see the web page for complete details. **There will be a meeting for new PG parents on August 17 at Noon, though all parents are welcome to attend.**

Intensive with Pam Lenker! Attention level 4 and higher tappers!! Pam is visiting from NYC and will be holding a clinic Labor Day weekend. Email or call to get on the list. It will definitely be held on Saturday and Sunday. Times and cost to be determined based on enrollment. Also let me know if you would like to arrange a private so I can coordinate her schedule.

Our Fall schedule is posted!

We look forward to seeing you soon!

Please feel free to contact us via phone and visit our website.
Have a wonderful summer,

Malinda Letts
